**MESSAGE**

It is inspiring to learn about the 7th India International MSME Start Up Expo & Summit 2021 organised by MSME Development Forum from August 17-19, 2021 at New Delhi.

A strong and vibrant MSME sector is pivotal for a self-reliant India. In the last two years, our Government has taken comprehensive and decisive steps to create new possibilities for the sector.

From curbing the default of MSMEs to removing various restrictions, from ensuring ease access to credit to providing them more opportunities in government procurements, we have taken steps in our efforts towards opening new avenues for small industries and start-ups. In the midst of challenges caused by the pandemic, special initiatives have been taken so that our MSMEs continue flourishing.

Today, India is one of the largest start-up ecosystems in the world that gives our entrepreneurs the confidence to compete at the global markets. India's start-up ecosystem is spread over about 10 percent of startups with success stories of start-ups not being limited to big cities only.

Our start-up ecosystem has become a force multiplier to the nation's development story. With the Government bringing in big reforms and opening up several sectors to harness our youth's intellect, ideas and entrepreneurial energy, it is the responsibility of various stakeholders of the sector to identify the regions and local aspirations and proactively participate to help unlock the immense potential of the sector.

I am glad that the 7th edition of the Summit will provide a robust platform to various stakeholders to share their knowledge and experience and chart out a roadmap for the future.

Best wishes for all success of the 7th India International MSME Start Up Expo & Summit 2021.

(Narendra Modi)
