MESSAGE

It is interesting to learn about the 7th India International MSME Start Up Expo & Summit-2023 organised by MSME Development Forum from August 17-19, 2023 at New Delhi.

A strong and vibrant MSME sector is pivotal for a self-reliant India. In the last few years, our Government has taken comprehensive and decisive steps to create new possibilities for the sector.

From revising the definition of MSMEs to removing various restrictions, from starting new funds to credit to providing more opportunities in government procurements, we have been tireless in our efforts towards opening new avenues for small business and start-ups. As the state of challenges caused by the pandemic, special initiatives have been taken so that our MSMEs continue flourishing.

Today, India is one of the largest start-up ecosystems in the world that gives our entrepreneurs the confidence to compete in the global market. India's start-up movement is spread over about 10 percent of districts with success stories of start-ups being lined up in big cities.

Our start-up ecosystem has become a focal point of the nation's development story. With the Government bringing in big reforms and opening up several sectors to harness our Yavashikar's potential, intent and entrepreneurial energy, it is the responsibility of various stakeholders of the sector to identify the important and most significant and proactively participate to help unlock the immense potential of the sector.

I am positive that the 7th edition of the Summit will provide a robust platform to various stakeholders to share their knowledge and experience and chart out a roadmap for the future.

Best wishes for all teams of the 7th India International MSME Start Up Expo & Summit-2023.

(Narendra Modi)
